

Blank Triangle Flash Cards

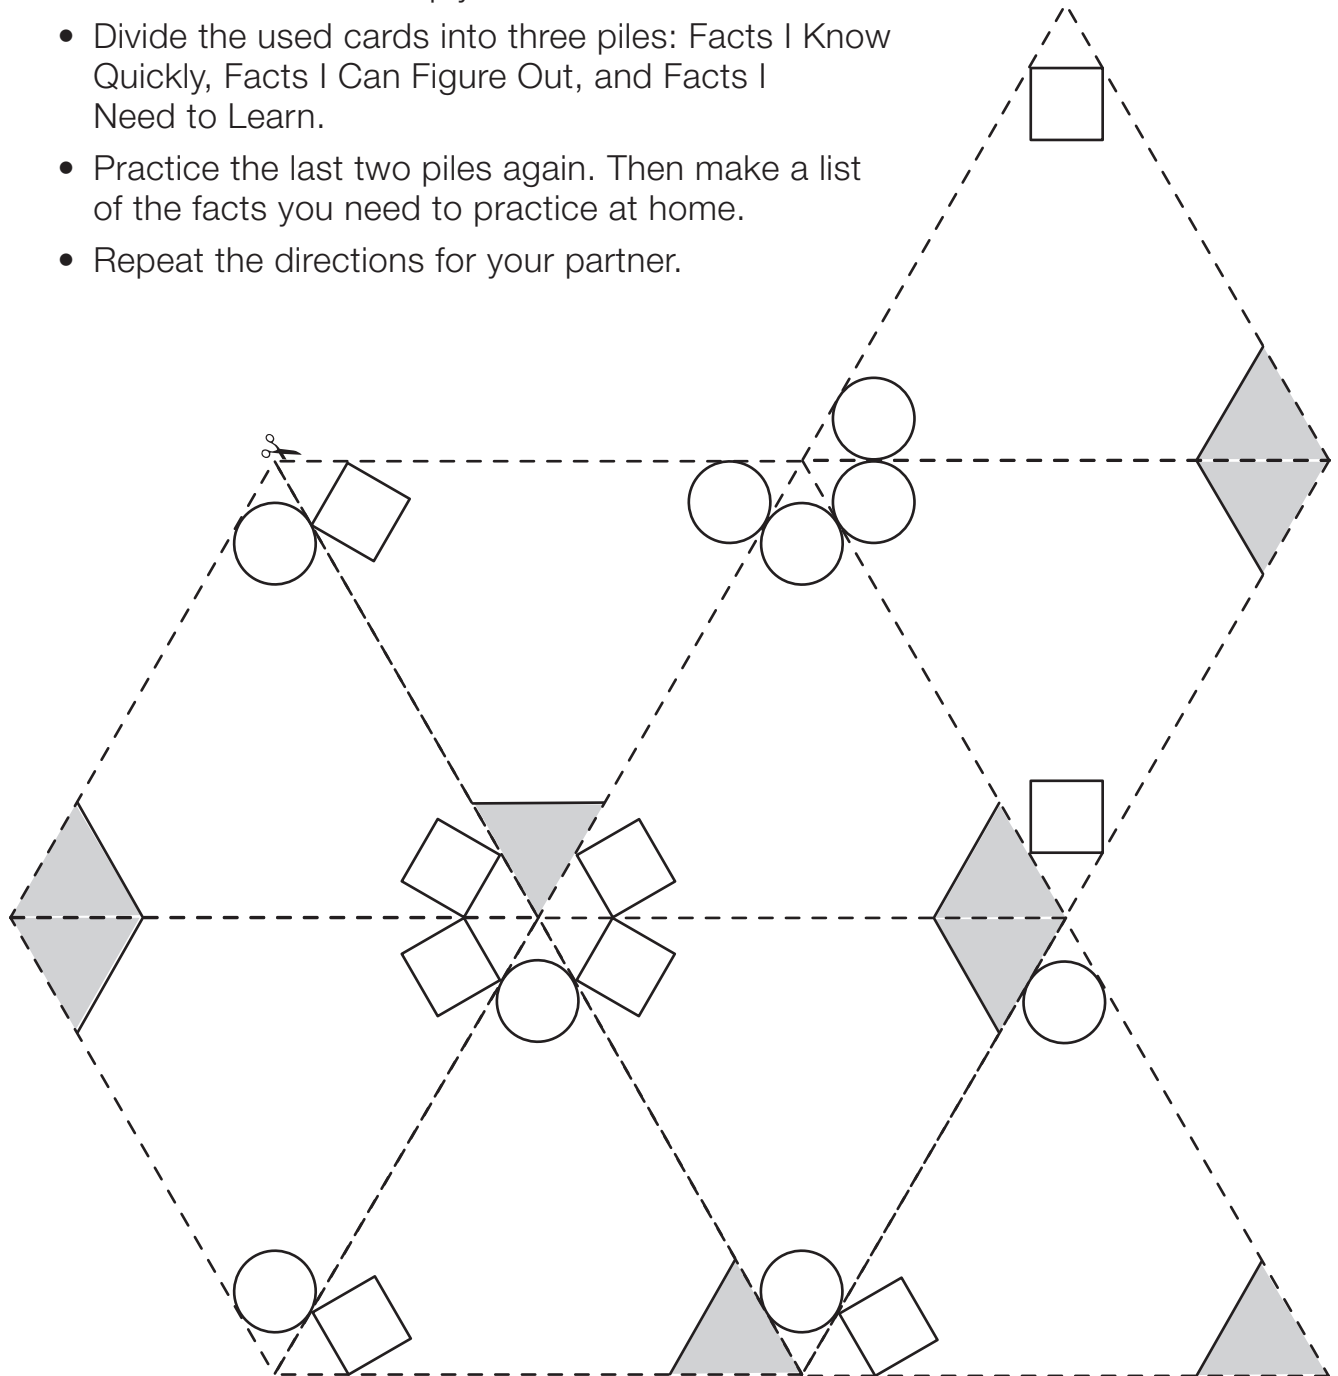

- Make a flash card for each fact that is not circled on your *Multiplication Facts I Know* chart. Write the product in the shaded corner of each triangle. Write the factors in the other two corners. Then cut out the flash cards.
- To quiz you on a multiplication fact, your partner covers the shaded number. Multiply the two uncovered numbers.
- Divide the used cards into three piles: Facts I Know Quickly, Facts I Can Figure Out, and Facts I Need to Learn.
- Practice the last two piles again. Then make a list of the facts you need to practice at home.
- Repeat the directions for your partner.
